

Member Benefits

ARASP includes a diverse membership that is engaged in:

- The Business of Chemistry
- The Oil and Natural Gas Industry
- Energy
- Crop Protection and Plant Science

ARASP MEMBERSHIP DETAILS

Member Benefits

The Center for Advancing Risk Assessment Science and Policy (ARASP) is a coalition that promotes the development and application of up-to-date, scientifically sound methods for conducting chemical assessments. ARASP's mission is to promote consistent and transparent risk assessment approaches, science methodologies and policies that broadly support industry's commitment to the generation and the use of the best available and relevant science in chemical risk assessments. ARASP is managed by the American Chemistry Council and provides its members with many benefits, including:

- Tools and resources that are essential to maintaining the most current knowledge on risk assessment science and policy issues
- Engagement with the regulatory community on approaches to improve risk assessment
- Platforms for science advocacy and outreach
- Focused stakeholder collaboration on toxicology and risk assessment methodologies, weight-of-evidence and data evaluation

Full Membership

Chemical specific organizations and trade associations that have been established to support the collaboration and activities of a specific industry are eligible for full membership. Benefits include a seat on the Management Committee, which provides fiscal and general oversight of ARASP, and the Science Workgroup, which is responsible for all general scientific matters.

Associate Membership

The associate tier membership is comprised of individual companies that manufacture, use or generate chemicals. Associate members have the opportunity to participate in Management Committee and Science Workgroup meetings.

Member Dues

Primary and associate tier members are assessed and invoiced dues on an annual basis, as designated by the Management Committee for the ARASP operating budget. For more information, please email arasp_information@americanchemistry.com.

New members joining ARASP, as either a primary tier member or associate tier member, during a fiscal year will pay a pro rata share of annual dues calculated from the date of joining ARASP to the end of the same fiscal year.
